

Download Intelligent Networks

Intelligent Water Networks is a partnership between VicWater, 17 Victorian water corporations and the Department of Environment, Land, Water and Planning. The process of delivering goods and services sounds simple but often leads to either shortages or surpluses. The Center for Intelligent Supply Networks (C4iSN) combines research by renowned faculty members, the work of bright student minds and the supply chain challenges of regional companies to produce groundbreaking solutions. An intelligent transportation system (ITS) is an advanced application which, without embodying intelligence as such, aims to provide innovative services relating to different modes of transport and traffic management and enable users to be better informed and make safer, more coordinated, and 'smarter' use of transport networks. Boston Networks is a UK leader in the design, installation and support of high-performance Wireless and Intelligent Building Systems. As an independent network specialist, we have a rare combination of breadth of experience and depth of knowledge.
