

# **Download Introduction To Computer-aided Manufacturing In Electronics**

This certificate provides detailed knowledge of electrical and electronic principles as applied to the design and operation of modern, high-speed manufacturing and assembly equipment. Manufacturing connectors since 1932, we take pride that the Amphenol Industrial Products Group is the undisputed leader in interconnect systems for harsh environment applications. As manufacturing equipment becomes more advanced and complex, trained and skilled technicians are needed. As an industrial electrician, you may perform a variety of functions related to electrical controls, equipment, and wiring in an industrial plant or worksite. Established in 1999, Premier Manufacturing has grown to be one of the largest electronics manufacturing service providers in Colorado. Our business has achieved this organic growth primarily through word of mouth and referrals.
