

# Download Inventors Challenge Worksheet Answers

Your young historian will learn about some of the most notable African American inventors with this worksheet. There's an exercise for comprehension and a secret code puzzle for fun! Take the speed challenge with your KS2 students. How many points can they score with their fast and accurate estimation skills? Our speedy maths challenges are great for seeing how quickly your children can apply what they've learnt! This one features a basic multiplication table to 10. Encourage your child to learn a little bit more about the African-American struggle for equality during Black History Month. This word search is full of important terms, concepts, and people that shaped the American Civil Rights Movement.
