

Download Librarian's Guide To Genealogical Services And Research

Genealogy (from Greek: γενεαλογία genealogia from γενεα genea, "generation" and λογος logos, "knowledge") is the study of families, family history, and the tracing of their lineages. Melvyl® system catalog database searches for genealogy and family history record sources, located within University of California and associated library depositories, from past and current online system connected holdings. Worldwide search engine information and databases for webmasters, research specialists, genealogists and family historians. NOLS provides access to a variety of third-party services to meet the needs of the community. Third party vendors are governed by their own terms, privacy policies and practices, not the Library's.
