

Download More British Narrow Gauge Steam: A Pictorial Survey

The primary source of information about books on railway history is George Ottley's monumental bibliography, with its two supplements (no serious public library can claim to be that if Ottley is not available). Manning Wardle 0-4-0ST WN 1862/1914 owned Leeds Phosphate Works: 2: Thomas Green narrow gauge 0-6-2ST WN 366/1904 Masham for construction of Roundhill Reservoir by Harrogate Corpn 1 Birmingham New Street LMS Days 1923 to 1947. Richard Foster 126 pages Softback 1997. Including the earlier "Curzon Street" station, latterly used as a goods station, this is a readable and wide ranging description and examination of the railways and their operation in and around Birmingham. A steam locomotive is a type of railway locomotive that produces its pulling power through a steam engine. These locomotives are fueled by burning combustible material – usually coal, wood, or oil – to produce steam in a boiler.
