

# Download On The Rise: Architecture And Design In A Post Modern Age

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Postmodernism is a broad movement that developed in the mid- to late 20th century across philosophy, the arts, architecture, and criticism and that marked a departure from modernism. The modern profession of architecture echoes with its origins, its rich history, and the fast-paced changes of the 21st century. Through antiquity, architecture and construction were united by the cultural intentions of a "Master Builder," who balanced art, science, materials, form, style and craft to achieve his vision. In February 1998, at the age of 91, Philip Johnson, the godfather of modern architecture, who 40 years earlier had collaborated with Ludwig Mies van der Rohe on the iconic Seagram Building, in ...
