We will be adding new content very soon, with photographs of some of the gardens we work on, together with some of the other services we provide. Learn to garden with practical advice from Gardener's World presenter Monty Don. Written with passion and packed with useful information, Monty Don's The Complete Gardener is a must-read for anyone who wants to learn how to garden. The word 'complete' has never been so accurately used. What I love about Monty Don is that while the rest of us are fussing about with design, technique, "interest" and focal points, he cuts through all of the clatter with style and a calm understanding of the soul and spirit of gardening. The Complete Gardener. Combining practical advice with stunning photography, The Complete Gardener shows gardeners how to create a self-sustainable, environmentally friendly garden for the 21st century, by making the most of the available natural resources to grow organic fruits and vegetables, as well as beautiful plants and flowers.
